

Kutengeneza mchanganyiko wa dawa

Weka maji ndani ya bomba la kunyunyizia dawa hadi nusu. Ongeza kiwango cha KATRIN kinachohitajika ukiwa unakoroga mchanganyiko. Kisha jaza maji kwenye bomba ukiendelea kukoroga. Mchanganyiko wa dawa usilale baada ya kuchanganya.

MANUFAA YANAYOTOKANA NA MATUMIZI

- Viwango vidogo vya dawa hutumika kwa kuua wadudu na hivyo matumizi huwa ya gharama ya chini.
- Huua wadudu kwa haraka na inaweza kutumika kwenye mmea aina tofauti tofauti.
- Mda mfupi wa kungoja kabla ya kutumia mimea - Siku moja

ILANI KWA MTUMIAJI

Dawa hii ni sharti itumiwe kulingana na maagizo yaliyo kwenye kibandiko. Ni hatia chini ya sheria za madawa kutumia au kuhifadhi dawa hii katika hali isiyu salama.

THIBITISHO

Dhamana ya muuzaji ni maelezo yaliyo kwenye kibandiko ambayo ni lazima yafuatwe kikamilifu. Mnunuzi lazima akubali hatari zozote zinazoweza kutokana na matumizi ya dawa hii kwa binadamu au mali na lazima aikubali dawa hii katika hali hiyo.

Soma maelezo kwenye kibandiko kabla ya kutumia

KATRIN

2.5% EMULSIFIABLE CONCENTRATE 25EC

A broad-spectrum synthetic pyrethroid insecticide for control of a wide range of insect-pests in vegetables and flowers.

For Profitable Crop Protection

DESCRIPTION

Katrin is a synthetic pyrethroid insecticide with contact and stomach action. It is fast acting with repellent and anti-feeding effects. It disrupts the normal nervous system function of the target insect pests.

ACTIVE INGREDIENT: DELTAMETHRIN 25 G/L
FORMULATION: EMULSIFIABLE CONCENTRATE (EC)
REGISTRATION No. : PCPB (CR) 0580

SPECTRUM OF CONTROL

Controls wide range of insects e.g. aphids, thrips and whiteflies on roses and French beans.

TARGET PEST AND APPLICATION METHOD.

| Crop | Pests | Dosage | P.H.I (Days) |
|---------------|-------------------------------|------------------------|--------------|
| French beans, | Aphids, thrips and whiteflies | 500ml/ha | 1 |
| Roses | Aphids, thrips and whiteflies | 50ml in 100lt of water | - |

For a 20 litre knapsack, use 10-15ml KATRIN

Application instructions

- Katrin is applied by leaf surface spraying using all types of spraying equipment.
- Half fill the spray tank with clean water, add the required amount of Katrin and stir. Then fill the spray tank with water while continuing to stir the mixture. Use the spray mixture on the same day of preparation.
- Inspect the crop regularly and spray at the first sign of insect attack.
- Repeat treatment as necessary depending on weather and levels of infestations.
- For best results, spray the crop thoroughly to ensure good coverage of all surfaces inhabited by the target pests.

BENEFITS OF USING KATRIN

- Effective at considerably lower application rates making it cost effective in use.
- Fast acting with a knockdown effect
- Wide range of insect pest control on a wide range of crops
- Low product residues on the crops due to low application rates
- Considerably fewer environmental hazards due to low chemical load
- Short Pre-harvest Interval (PHI) - 1 day

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the product label. It is an offence under the Pest Control Products Act to use or store a pest control product under unsafe conditions.

WARRANTY

Seller's guarantee is limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

MAELEZO

KATRIN ni dawa asili aina ya "pyrethroid", inayowaangamiza wadudu aina nyingi kwenye maharagwe na maua. Huwaangamiza wadudu kama vile "aphids", "thrips" na "whiteflies"

MAAGIZO YA MATUMIZI

- KATRIN hunyunyuziwa kwenye matawi kwa njia ya "spray" kutumia vifaa vya kawaida vya kunyunyizia.
- Unyunyuzaji sharti ufanywe mara tu wadudu wanapoonekana na kurudia kulingana na jinsi mmea umeshambuliwa na wadudu.
- Hakikisha sehemu zote za mmea zinalowa kwa dawa ili kupata matokeo mazuri.

VIWANGO VYA MATUMIZI

| MIMEA | WADUDU WAHARIBIFU | VIPIMO | MUDA WA KUNGOJA KABLA YA KUVUNA |
|---------------|------------------------------------|-------------------------------------|---------------------------------|
| French beans, | "Aphids", "thrips" na "whiteflies" | Mililita 500 kwa hektari | Siku 1 |
| Maua | "Aphids", "thrips" na "whiteflies" | Mililita 50 kwenye lita 100 za maji | - |

Tumia mililita 10 -15 ya KATRIN kwa lita 20 za maji
