

KABEDAZIM 500SC

FUNGICIDE

KABEDAZIM 500SC is a systemic fungicide with protective and curative activity for the control of a wide range of diseases in vegetables, flowers and fruit trees.

ACTIVE INGREDIENT: CARBENDAZIM 500 g/l

FORMULATION Suspension Concentrate (SC),

REGISTRATION NO: PCPB (CR)1083 - p(i)

WHO CLASSIFICATION: WHO Class III

MODE OF ACTION: KABEDAZIM 500SC is based on active ingredient, carbendazim, which is a methyl benzimidazole carbamate (MBC) fungicide. Carbendazim inhibits DNA synthesis during nuclear division by disrupting protein kinases thereby interfering with the fungal developmental cycle which includes spore germination, mycelium growth and spore production.

SPECTRUM OF CONTROL: KABEDAZIM 500SC is a broad spectrum fungicide for preventative and curative of fungal diseases in French beans, Roses, tomato, mangoes/other fruit trees, rice and peas.

RECOMMENDATION FOR USE:

Crop	Target Disease	APPLICATION RATE		PHI (Days)
		Lt/ha	ml/20L	
Roses	Grey Mould (Botrytis), Black spots	1 Lt/Ha	20ml	-
Mangoes and other fruit trees	Anthracnose, Powdery mildew, Fruit rot, Scab	0.75Lt/Ha	20ml	14
Peas	Aschochyta, Leaf spots Grey mould (Botrytis) Leaf spots, Leaf mould	0.75Lt/Ha	20ml	7
Tomato	Leaf spots, Leaf mould Grey mould (Botrytis) Stem rot	0.75Lt/Ha	20ml	7
Rice	Rice blast, Sheath blight	1 Lt/Ha	20ml	14
French Beans	Anthracnose, Root rot Leaf spots, Grey mould (Botrytis)	0.75Lt/Ha	20ml	7

APPLICATION TIMING: KABEDAZIM 500SC can be applied as a direct foliar spray using 1,000L of water per Ha. Apply KABEDAZIM 500SC when weather condition favour disease development and continue at 5 to 7 days interval when disease severity is low. Ensure thorough wetting of the crop. Application can also be done as a drench.

COMPATIBILITY: Kabedazim is Compatible with most commonly used pesticides and nutritional products used in the listed crop except for products with alkaline reaction. However, do not tank mix with any product unless your own prior testing has shown that the combination is physically compatible, effective and non-injurious under your conditions.

BENEFITS:

- Fully systemic and broad-spectrum i.e good in Botrytis, Rhizoctonia, Fusarium, Aschochyta control.
- Broad spectrum - controls many diseases.
- Can be applied either through foliar spray or through drenching
- Exhibit preventative, curative and eradicator activity on fungi
- Good value for money

AVAILABLE PACKS: 100ml, 500ml, 1lt
